

## Case Study - Residential

### Castle Green Home, Dyserth

#### Project Specifications

Products Specified: TVN037.89

Finish Specified: 89. Bronze

Sector: Residential

#### Project Description

Located in Denbighshire, Dyserth is a quaint Welsh village known for its quarrying, waterfalls and mountainous surroundings. With a history that dates back to the 1000's, Dyserth has stayed true to its rural roots.

Oakwill flooring recently had the pleasure of fitting the flooring in a new build at the new Castle Green development.

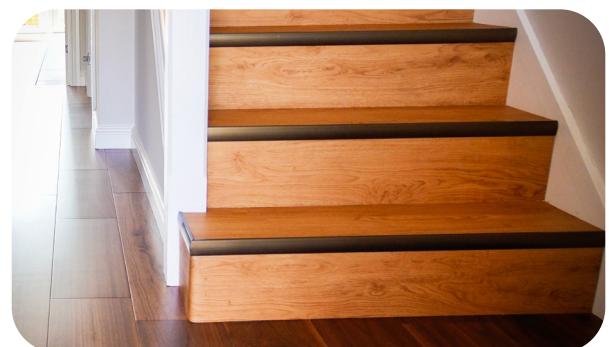

Flooring for downstairs, upstairs and staircase all had to be completed ready for the clients to move in.

Starting with 6mm ply to bedrooms, landing and stairs then feather finished the joints.

The stairs were then finished off perfectly with Genesis aluminium step edges in Bronze.

The finished installation looks incredible.
